

- STANDARD DASH 4 & 6 FITTINGS RATED TO 10BAR
- CAPACITY OF 1.6 LITRES
- LIGHTWEIGHT & COMPACT DESIGN IN BOTH RAW ALUMINIUM & BLACK

- ALUMINIUM TIG WELDED TANK
- WORKS VERY WELL ALONG SIDE THE COMPACT COMPRESSOR
- WELDED & TESTED DESIGN PREVENTS ANY DANGER OF LOOSE PARTS

The accumulator is a professionally fabricated pressure storage vessel. It stores air from the compressor in order to supply high consumption activities when the compressor is not active or cannot meet demand.

It has standard dash 4 and dash 6 JIC fittings and is rated to 10bar. The welded and tested design prevents any danger of loose parts or poor assembly.

# ACCUMULATOR PRO

## ZG038-2/ ZG050-1

### Full Product Description:

The accumulator is a professionally fabricated pressure storage vessel. It stores air from the compressor in order to supply high consumption activities when the compressor is not active or cannot meet demand.

It has standard dash 4 and dash 6 JIC fittings and is rated to 10bar. The welded and tested design prevents any danger of loose parts or poor assembly.

There is a finish option of either raw aluminium or powder coated black, both of which give a really nice look to the unit.

### System Requirements:

|                             |                    |
|-----------------------------|--------------------|
| Air Supply                  | <10 Bar            |
| Ambient Working Temperature | -10 to +70 Degrees |
| Installation Notes          | See Appendix 1     |

### Technical Data:

|                            |                        |
|----------------------------|------------------------|
| Maximum Operating Pressure | 10 Bar                 |
| Capacity                   | 1.6 Litres             |
| Fitting Air In             | Dash 4 JIC Male        |
| Fitting Air Out            | Dash 6 JIC Male        |
| Drain Cap                  | Dash 4 JIC Male Capped |

### Product Dimensions:

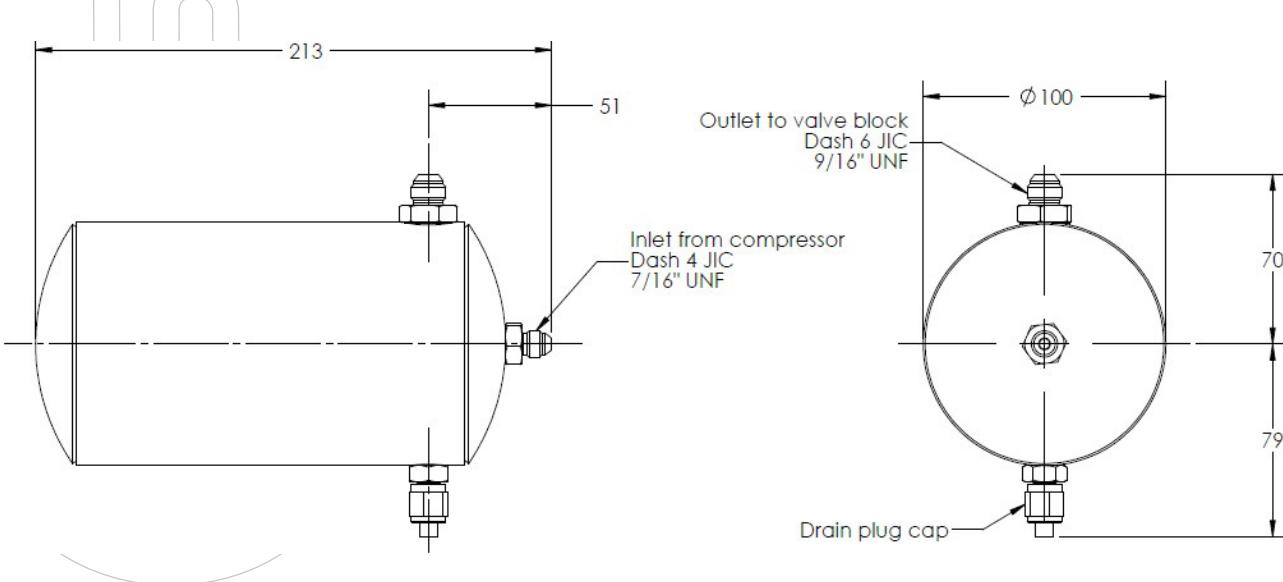

|        |        |
|--------|--------|
| Length | 213 mm |
| Width  | 100 mm |
| Height | 149 mm |
| Weight | 580 g  |

### Product Ordering information:

| Description                         | Part Number |
|-------------------------------------|-------------|
| Accumulator Pro Raw Ali             | ZG038-2     |
| Accumulator Pro Powder Coated Black | ZG050-1     |

### Appendix 1: Installation Notes

- Install away from direct heat source
- Keep away from vibration
- Mount with drain cap at lowest point and air outlet at highest point
- Do not strain or side load pipework and fittings
- Use copperslip when attaching hose fittings - not Loctite or PTFE tape
- Use only aluminium or stainless steel hose fittings
- Drain any moisture from accumulator after race weekend
